Customization

- * When your Business has needs just outside the scope of Synergy and the tools and plug-ins don't answer your need.

Project Plus Free Fields

Application:

You are building a project and most of the way through the development, you find that you do not have enough Free Fields. What do you do?

Many customers elect to shorten the the amount of available data, eliminating the use of fields which can provide excellent value to the resources which are made a part of this business process. Other organizations look at all of the data and combine it into a single comment field, making searching and reporting very difficult.

Or you add our tool to your Synergy toolkit.

We have increased the amount of available Free Fields in a single project by a quantity of **"155"** when using our tool.

Functionality:

- ⇒ Additional Free Fields to be used for any project
- ⇒ Look and functionality similar to "standard" free fields
- ⇒ Available in standard searches or pivot analysis views
- ⇒ Long text fields (comments) have been added
- ⇒ GUIDs have been added
- ⇒ Number (Integer) fields have been added
- ⇒ Links to Documents stored in a file directory can be displayed (No access to these documents from Synergy—view link only)

Features:

Free Fields types that have been added with this enhancement include:

- > Free Text Fields (35)
- > Free Date Fields (20)
- > Free Yes / No Fields (20)
- > Long Text Comment Fields (10) (Similar to Remarks: Request)
- > Free Number (Integer) Fields (25)
- > Free Number Fields (20)
- > Free GUID Fields (25)
